PROFILE

Software Engineering MSc candidate at Technische Universität Wien with a BSc in Software Engineering from Izmir University of Economics. Interested in artificial intelligence, machine learning, data science, and full-stack software development. Experience spans product development, data analysis, mobile and desktop applications, software solutions engineering, and academic project work.

EDUCATION

Technische Universität Wien <i>Master of Science in Software Engineering</i>	Vienna, Austria Oct. 2025 – Present
Izmir University of Economics <i>Bachelor of Science in Software Engineering; GPA: 3.16/4.00, Honors Student</i>	Izmir, Türkiye Aug. 2020 – Jul. 2024
Università degli Studi Niccolò Cusano <i>Computer Science / Software Engineering, Erasmus Study Mobility</i>	Rome, Italy Feb. 2023 – Jul. 2023

TECHNICAL SKILLS

Programming: Java, Python, C, C++, C#, JavaScript, Dart, Kotlin, SQL
AI, ML & Data: Large Language Models, Generative AI, Natural Language Processing, Named Entity Recognition, Prompt Engineering, Machine Learning Algorithms, Model Evaluation, Feature Engineering, TF-IDF, LightGBM, spaCy, Data Analysis, Data Science
Frameworks & Tools: .NET, ASP.NET Core, Flutter, Riverpod, MAUI, Firebase, FastAPI, LangChain, LangGraph, Google Vertex AI, Gemini, Git, Docker, pytest, Bootstrap, Node.js, Vue.js, Claude Code, OpenAI Codex, Kaggle, Z3
Software Engineering: OOP, REST APIs, MVC, Software Design, Software Architecture, Design Patterns, UML, SRS, Software Testing, Formal Methods, Agile, Scrum
Data & Databases: Data Structures, Algorithm Design, Database Design, MySQL, SQLite, Microsoft SQL Server, NoSQL
Development Areas: Web Development, Mobile Development, Desktop Application Development, Frontend Development, Backend Development, Full-Stack Development

PROFESSIONAL EXPERIENCE

Monovi Bilgi Teknolojileri Yayıncılık San. ve Tic. A.Ş. <i>Product Development Team – Software Solutions Engineer Intern</i>	Izmir, Türkiye Aug. 2023 – Sep. 2023
- Worked in a product development and software solutions engineering environment. - Applied software engineering, database, and application development knowledge to practical project work.	
Izmir University of Economics <i>Student Mentor, Volunteer</i>	Izmir, Türkiye Aug. 2023 – Mar. 2024
Served as a volunteer student mentor and supported student-facing academic and community activities.	

PROJECTS

Semantic Anonymizer	2026
Developed a privacy-focused text anonymization system using large language models, Google Vertex AI, Gemini 2.5 Flash, and spaCy named-entity recognition.	
Analyzing Traffic Patterns in Izmir: A Study on Busy Hours and Congestion	Feb. 2024 – Aug. 2024
Co-authored an IEEE-published data analysis study on busy hours and traffic congestion patterns in Izmir.	
Divine	Oct. 2023 – Present
Developed a performer–crowd interaction system and achieved 2nd place in the Education, Entertainment and Gaming category at Genç Beyinler Yeni Fikirler 2024.	
Kaan Nakipoğlu Website	2024
Built a personal portfolio website from scratch to showcase professional experience, skills, projects, and contact information.	
NakipsPDFMerger	2024
Built a desktop application for merging PDF files in a user-defined order as a local alternative to online PDF-merging tools.	
DotsAndLinesSquareGame	2023
Created a Java-based multiplayer square-forming game where players draw lines between dots to complete squares and score points.	
Skill Sharing Project	Aug. 2023 – Sep. 2023
Built a platform where users can share skills and offer courses.	

Gas Distribution System “GDS”		2022 – 2023
Developed logistics-oriented order automation software focused on operational efficiency.		
Cocktailous		2022 – 2023
Built a cocktail-themed mobile application as part of a software development project.		
Z!NK	Board-game design project.	2022
SimpleATM	ATM simulation program modeling basic banking operations and transaction flow.	2022
Eventful	Social-media project.	2022
Green Campus	Clean-energy campus project.	2022
Graph Coloring Problem	Graph-coloring algorithm program for solving a classic graph theory problem.	2022
Hero of the Dungeon	Text-based RPG game.	2021
Seabin	Clean-environment project.	2021
The Cave	Text-based RPG game.	2020

AWARDS & ACHIEVEMENTS

- IEEE-published paper:** “Analyzing Traffic Patterns in Izmir: A Study on Busy Hours and Congestion”.
- 2nd Place, Genç Beyinler Yeni Fikirler 2024:** Education, Entertainment and Gaming category with the project “Divine”.
- Honour Student, Izmir University of Economics:** 1st Year Fall Term, 1st Year Spring Term, 2nd Year Spring Term, 3rd Year Spring Term, 4th Year Fall Term, 4th Year Spring Term.

ADDITIONAL INFORMATION

Languages: Turkish – Native; English – Full Working Proficiency; German – Limited Working Proficiency

Certificates: Occupational Health and Safety Certificate; InterCView – Interview Simulations Event Attendance; Lean 6 Sigma

Soft Skills: Communication, Leadership, Teamwork, Analytical Thinking, Management

Interests: Martial Arts, Sailing, Coding, Traveling, Video Games, Mind Puzzles
